During my USAF career, communication and team-building were key as a U.S. liaison for joint North Atlantic Treaty Organization (NATO) partners. I am trilingual so I am familiar with the cultures of Germany, Spain, and Japan. By applying cross-cultural skills, I intend to apply solutions to workplace problems through focusing on my programming languages of choice: MERN Stack.

## LANGUAGES

- Javascript
- Node.js
- ES6
- React.js
- Python
- HTML5/CSS3
- JSON
- Git
- AJAX/HTTP

## FRAMEWORKS

- .NET
- MERN (MongoDB, Express, React, Node)
- AngularJS
- Bootstrap3.0

## DATABASES

- MySQL
- MongoDB
- Mongoose

## PROJECT EXPERIENCE

### Moxie App — AT&T Shape Hackathon, Los Angeles, CA, Jul 2017 [View Moxie Hackathon Project](#)

- Developed front-end (splash page) and middle-tier of Moxie, a social networking web app composed of “Moxie channels” which users can create, follow, and contribute to.
- The channel is synced with live chat via Twilio API, allowing users to interact in real time.
- News feed and nearby meetup section linked with Google Maps API supplements each channel to create a hub of resources and encourage users to meetup and collaborate on mutual interests.

## WORK EXPERIENCE

### Full-Stack .NET Software Developer — Lash Girl Club, Los Angeles, CA, Dec - Jun 2017

- Served as a Full-Stack software developer for LGC, an online cosmetics box subscription site that also provides health and wellness materials that link to currently featured product bundles.
- Incorporated administrative dashboard, privacy policy, user blog features, user heat Maps, and linked LGC real-time social media posts for marketing campaign success.
- Technologies: Visual Studio 2015, SQL Server Management Studio, Team Foundation Server (TFS), Transact-SQL, JavaScript, MVC 5.x, Web Api 2.x, JSON Serialization, AJAX, jQuery, AngularJS, Bootstrap 3.0, CSS3, AWS S3, MVC Attribute Routing and Trello.

### Flight Operations Team Lead, United States Air Force, UT/Germany/NM, Mar 2010 – Mar 2016

- Supervised teams & managed 24/7 emergency responses during 22 In-Flight Emergencies (IFEs); resulted in 26 deterred fatalities and \$288M secured assets as a Senior Emergency Actions Controller.
- Developed and revised 130+ procedures (checklists) tailored for emergency responses, disaster preparedness and conducted flight following/tracking for daily 15+ aircraft sorties.

## EDUCATION

**Antioch University**, Cert. Web Development (.NET/ MEAN Stack) — 2017

**Santa Monica College**, Interaction Design (IxD) — 2019

**Ashford University**, B.A. Applied Linguistics — 2016
